

Please leave this alone!! It is so nice to have Supper Time, TV Time , Family Time, without a telemarketer calling to sell you something you don't want or need. So many people have had to spend their extra money on things like Caller ID's and Answering Machines to avoid this Crap!! It is pretty Sad to think a Machine has to pick up your calls for you to scan through before you can talk to the ones want to. PLEASE RECONSIDER THIS ACTION!!!!!! Finally some privacy!!
